Policy #/Topic: Recreation and Community Services

Comment: Improve library facilities - develop as a community center.

A proposed trail along the Murrieta Creek drainage ditch north of Wesley should be reconsidered. That section is secluded and not easily monitored by public safety employees, so it would almost certainly be a problem area.

Station: \_\_\_\_\_

Policy #/Topic: Circulation

Comment: Wildomar would be a good location for a transit hub, linking Temecula Valley <sup>businesses and</sup> ~~from~~ commuters to San Diego, Orange and LA counties.

## Draft General Plan Goals, Policies and Actions

\* Tree Preserv. Ord.  
\* History section  
of Wildomar in  
the  
GP

As a critical milestone in the development of Wildomar's updated General Plan, we are pleased to publish the Plan's draft goals, policies and implementation actions for review by our community. These goals, policies and actions were adapted from the City's current General Plan and augmented to address comments provided by the community and the General Plan Advisory Group (GPAG), to incorporate best planning practices and to conform to State legislation. They are intended to provide the roadmap towards achieving the Vision Statement adopted by the City Council and Guiding Principles generated from public comments and confirmed by the GPAG:

wildlife  
considers  
Master  
Plan

### Vision Statement

The City of Wildomar will be a safe and active community with responsible growth and quality infrastructure while keeping a hometown feel.

### Guiding Principles

Wildomar is a city that:

- Provides a welcoming, safe and family-friendly environment with opportunities for healthy, self-sustaining lifestyles for all residents.
- Balances responsible growth with preservation of rural character, open spaces and historical resources.
- Protects the visual and ecological value of its natural resources.
- Nurtures small businesses, attracts high-quality jobs, provides quality educational opportunities and commercial services that capture local spending and generate revenues to support Wildomar's vision for the future.
- Maintains safe roadways and high-quality pedestrian, bicycle, multi-purpose trail and transit networks.
- Provides for social, physical and mental health through arts and programs, entertainment, recreational opportunities, quality infrastructure and gathering places for residents of all ages and abilities.

The goals, policies and actions in this package are organized by each element of the General Plan, including Land Use and Design, Circulation, Economic Development, Open Space and Conservation, and Recreation and Community Services. For each element, an introductory statement describes the general vision that the goals, policies and actions seek to realize. The City's Housing and Safety Elements were updated and adopted in 2021 and will be integrated into the final General Plan document.

1/27/2024

City of Wildomar  
23873 Clinton Keith Road Suite 110  
Wildomar, CA 92595

To Matt Bassi,

The Wildomar Historical Society would like to request the following recommendations, highlighted in yellow, be included in the City of Wildomar Draft General Plan Draft Goals, Policies, and Actions.

Page 50 Policy 1.5

**Wildlife Corridors.** Protect existing wildlife corridors by reducing habitat fragmentation from new developments. Work with the Riverside Conservation Agency (RCA) in pursuing land purchase opportunities to preserve available lands. **Identify wildlife corridors on maps.**

**Policy 1.5: Wildlife Corridors.** Protect existing wildlife corridors by reducing habitat fragmentation from new developments. Work with the Riverside Conservation Agency (RCA) in pursuing land purchase opportunities to preserve available lands.

---

Page 50

Draft Goals, Policies and Actions 1/24

Page 51 Policy 1.6

**Natural Vegetation Conservation.** Maintain, **conserve, and protect** mature examples of native trees, **historic trees i.e. oak and olive trees**, natural vegetation, stands of established trees, and other features for ecosystem, aesthetic, and water conservation purposes.

**Policy 1.6: Natural Vegetation Conservation.** Maintain and conserve mature examples of native trees, natural vegetation, stands of established trees, and other features for ecosystem, aesthetic, and water conservation purposes.

Page 52 **Add Policy 4.4** Under GOAL 4

**GOAL 4: Cultural and historical resources that are protected, enhanced, and restored for the education, appreciation, and enjoyment of future generations.**

**Policy 4.4 Cultural and Historical Resources.** Ensure that the Wildomar Historical Society (WHS) is notified and comments on historical resources.

Your consideration to include the highlighted additions to the Draft Goals, Policies and Actions would be a benefit to the community and would be greatly appreciated.

Sincerely,

Don Saunders

You don't often get email from cashman@linkline.com. [Learn why this is important](#)

The safety element should be part of the plan reviewed by the citizens. Its not just the scope of the responsibility of the city of Wildomar that matters when displaying hazards. On maps include adjacent areas.

1. The legend on the SE 42 map does not include the various colors on the map. Also, Map SE 42 needs to include fire information about adjacent county and city of Lake Elsinore land. Has CAL fire evaluated these?
2. Map SE 66 (evacuation constraints) needs to include the adjacent city of Lake Elsinore and Riverside county where some of the evacuation takes place. Evacuation is not addressed in these areas.
3. Map SE 43 Wildlife zoning areas need to be included for these maps to make sense.
4. Policy S-51 Locate new public facilities outside ..does this include the electric company? I am thinking of the explosive and fire potential of battery storage. Would Policy S-79 apply?
5. Map SE 16 is not complete off of Corydon Road. Additional faults are known.
6. Map SE 18 could include a policy statement limiting housing construction in liquifaction zones
7. Map SE 30. Does the dam failure at Lake Elsinore pose a threat? If so there should be a policy statement. The size of the lake is being artificially maintained.
8. The crime assesment map needs to have an image of the extent of Wildomar on it. As printed the map is not useable. Different agencies handle crime in Murrieta and Wildomar.
